POWERED BY MESHTEK

"MeshTek is leading the increase of transformative digital lighting installations that were once cost-prohibitive and complex. Their patented, long-range Bluetooth mesh is the brilliance behind the solution and the future of outdoor device connectivity."

- Mark Cuban

Owner, Dallas Mavericks, and Investor on the hit show Shark Tank

ABOUT US

Powered by MeshTek, BlueHopper is a Dallas based company that offers a permanent roofline and a complete range of landscape lighting solutions for homes, businesses, and municipal buildings. The lighting system is app-controlled, allowing scheduling and offering numerous colors, scenes, and motion patterns. It is wirelessly meshed, energy-efficient, digitally addressable, and suitable for holidays, events, and promoting social causes. The system is plug-and-play, user-friendly, and supported by advanced features and functionality with 40+ patents that makes the permanent lighting illuminate every occasion.

PERMANENT ROOFLINE & LANDSCAPE LIGHTING

Step into the spotlight and outshine competition with our unrivalled smart outdoor lighting solutions.

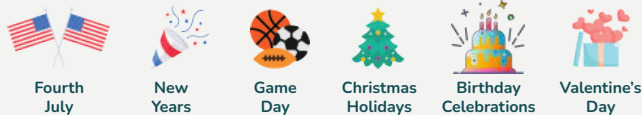

Invisible in day light, Amazing in night !

The roofline lighting resembles traditional C9 lights at night but remains hidden under a decorative trim molding during the day.

Celebrate, and enjoy!

There are lots of reasons to celebrate any season, any cause. So, light up your festivals and special days with our themed lighting that will boost the customer experience.

1

One Time Installation

Works with 20+ Landscape and Outdoor Lighting products...

Schedule & Forget

Schedule occasions like Christmas, Halloween, Mother's Day, Independence Day and many more...

Our lighting strips totally disappear into the structure of buildings on which it is installed. Thanks to special acrylic mounted casings!

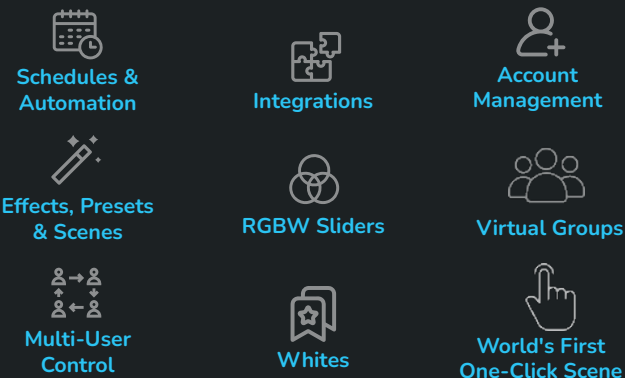

Ultra Durable
Acrylic Casing

Up to 50K+
Hours of LED Life

Let the advanced automation
of **BlueHopper App** do its role
throughout the year.

BLUEHOPPER APP

BlueHopper, our own patented app developed in-house, is available for iOS and Android devices. This simple user-friendly app is used to program and schedule all aspects of the BlueHopper family of products. Local control is done via MeshTek's advanced long-range Bluetooth Mesh, one of our many patented features. An optional gateway allows integrations with Alexa, Google, various security systems, weather & sports feed, and remote access for more flexible control from a distance, a huge benefit in large or multi-property installations.
